

model6-sx-qs
Longitudinal profile of vertical field

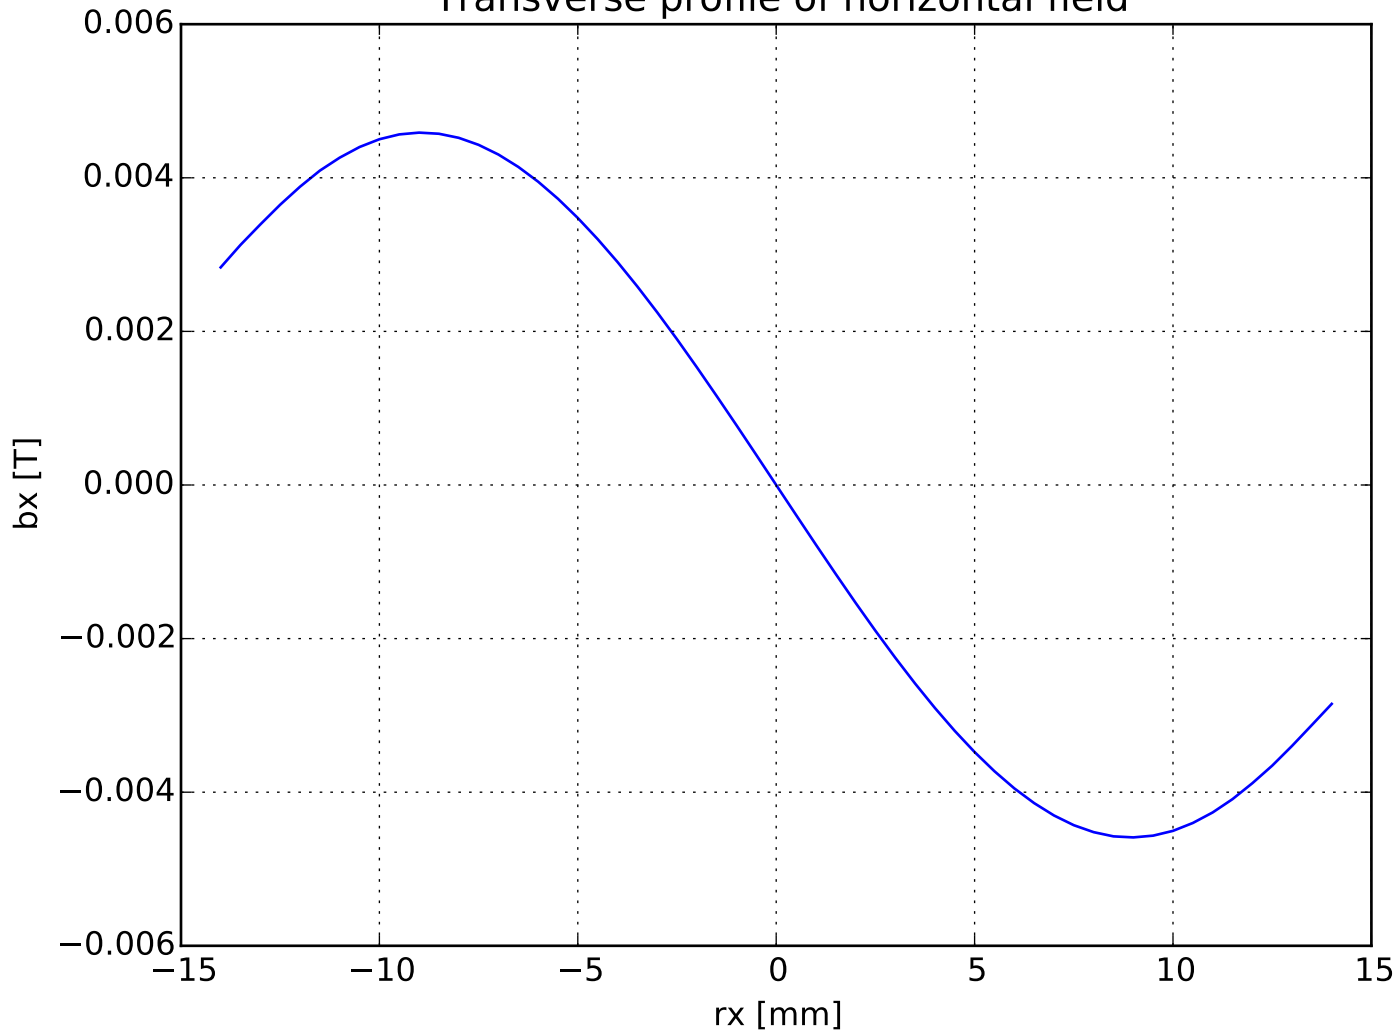

model6-sx-qs
Longitudinal profile of horizontal field

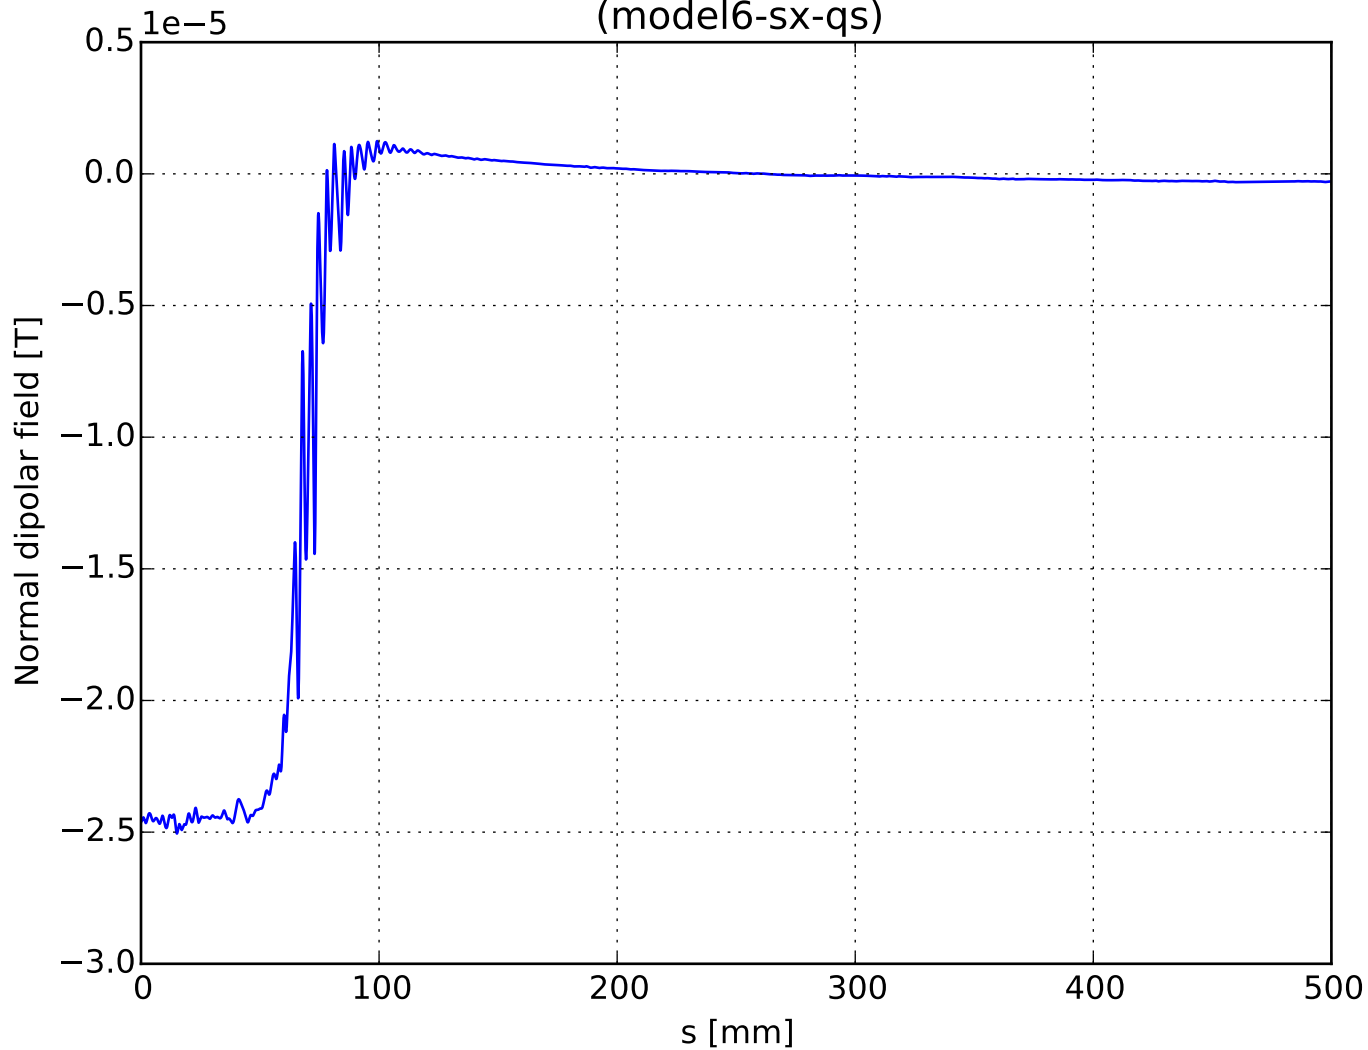

model6-sx-qs
Transverse profile of vertical field

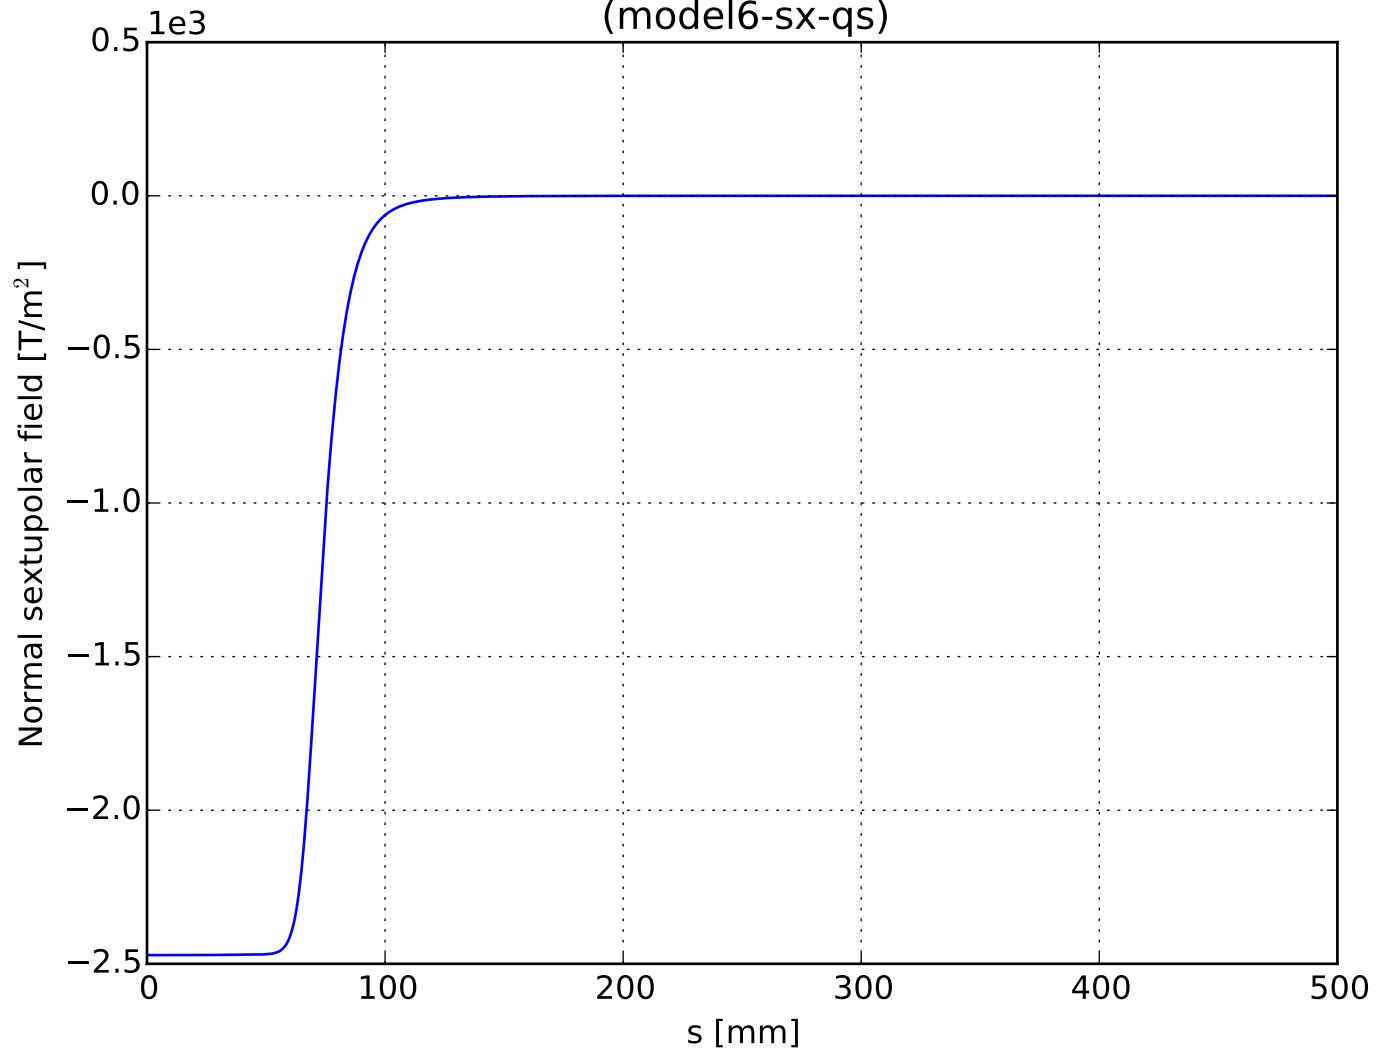

model6-sx-qs
Transverse profile of horizontal field

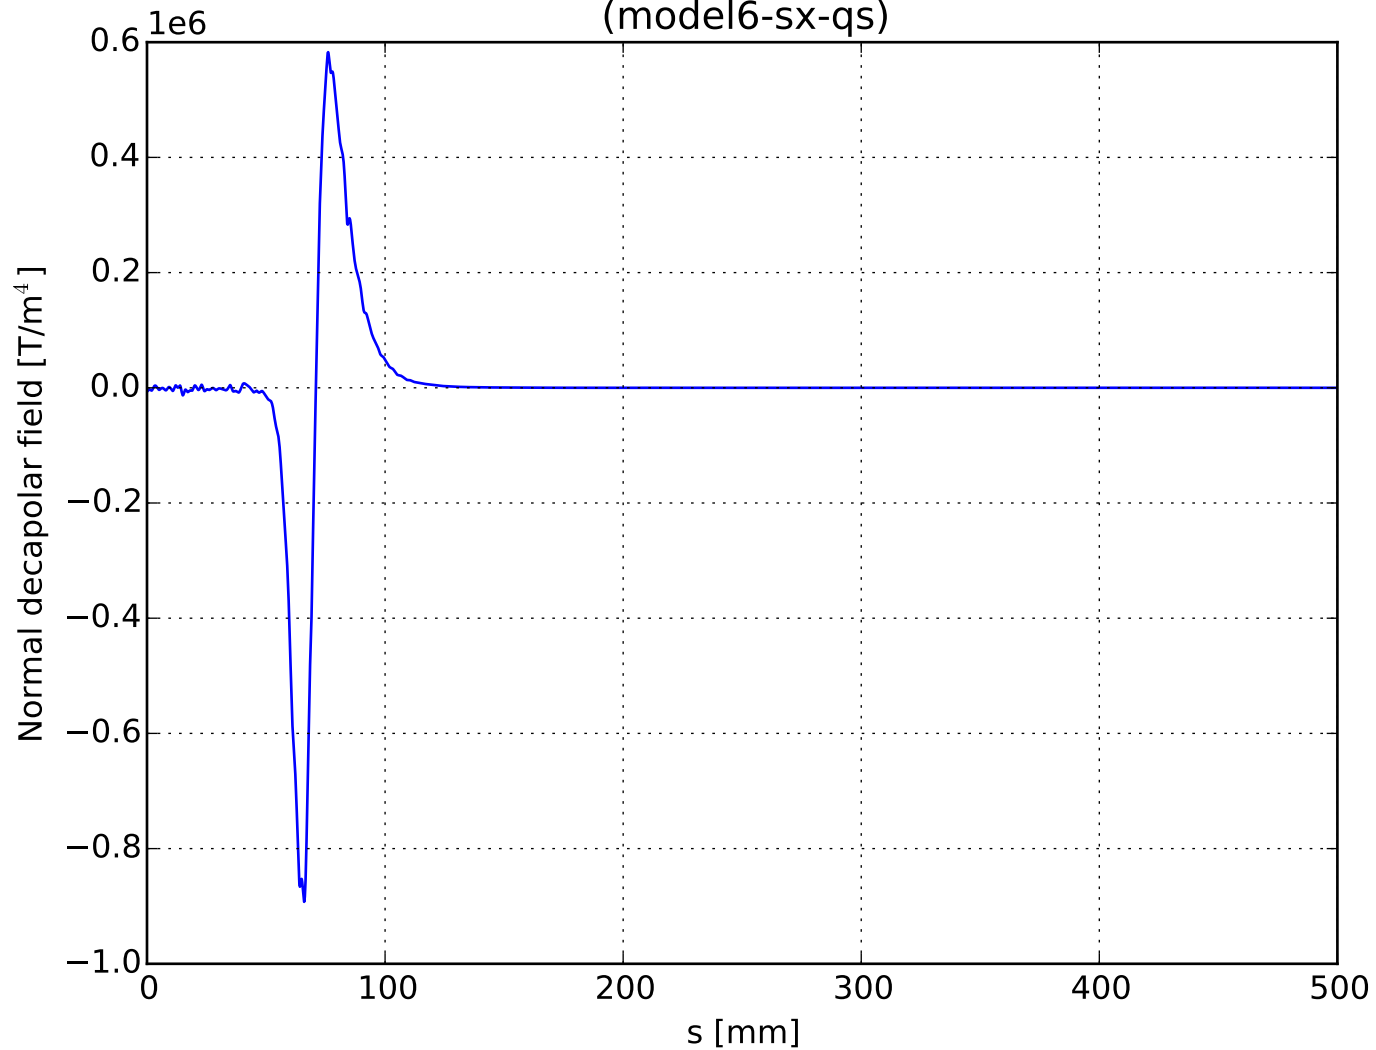

Normal dipolar field along trajectory
(model6-sx-qs)

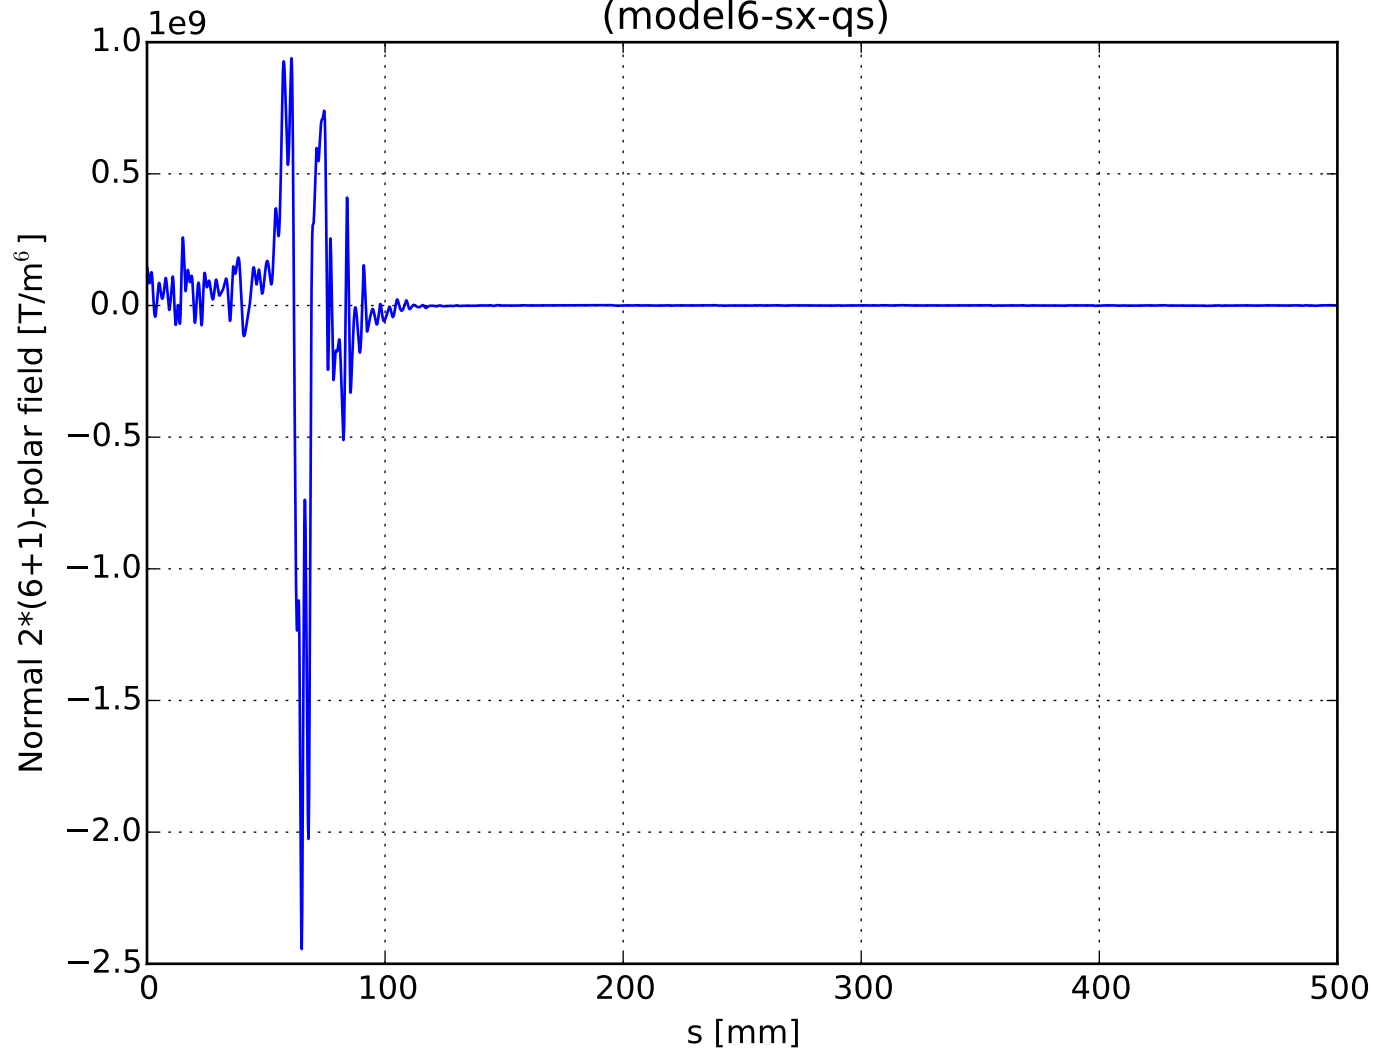

Normal sextupolar field along trajectory
(model6-sx-qs)

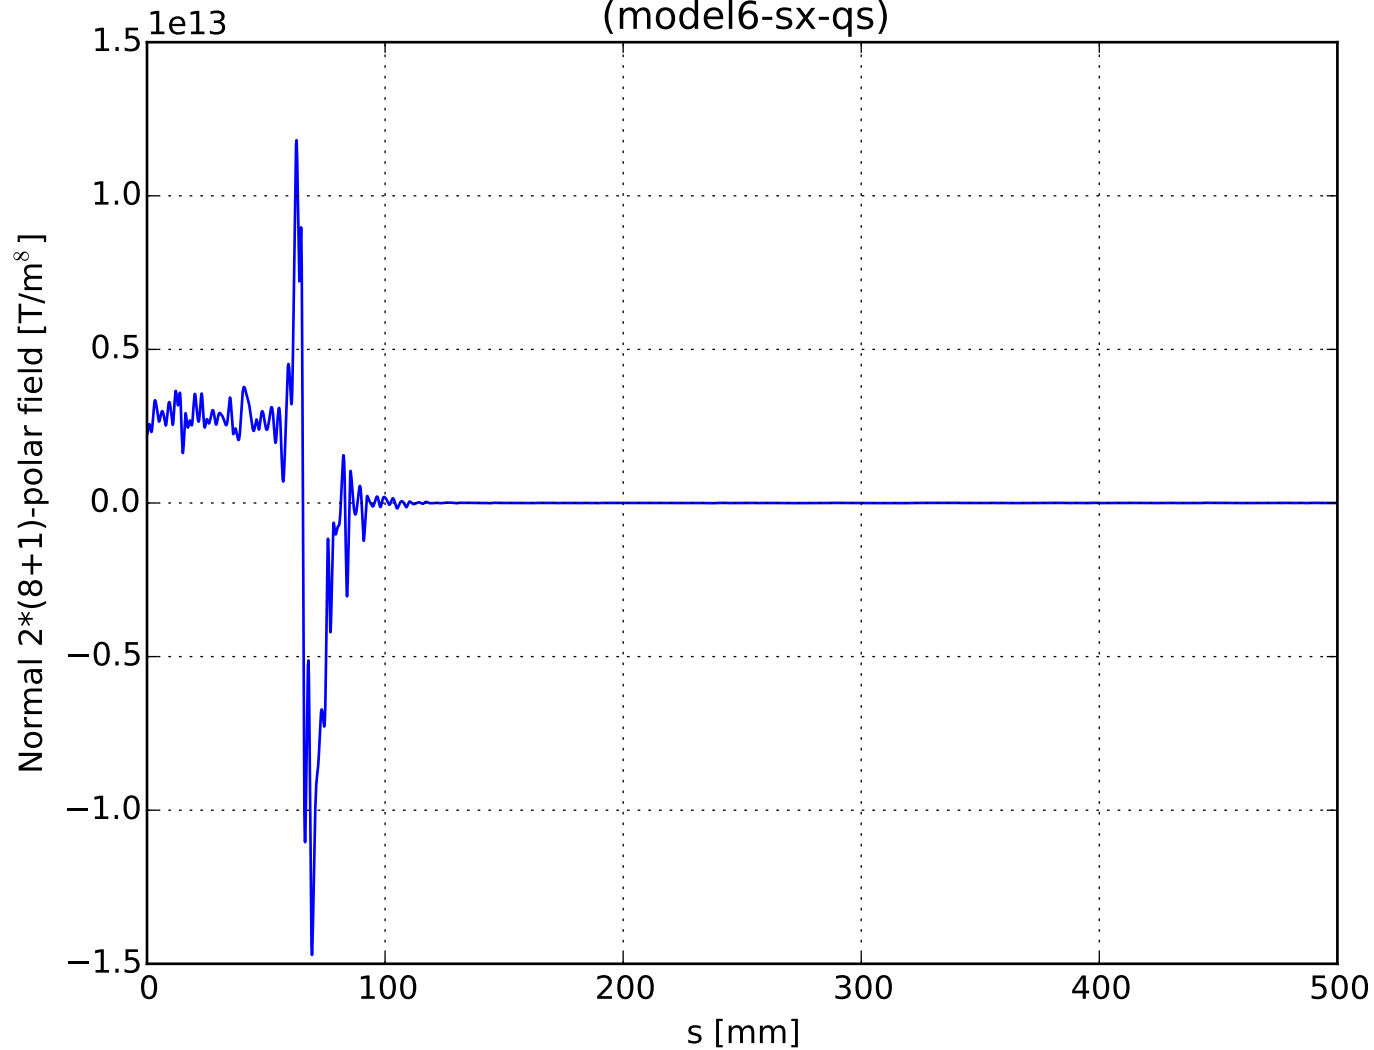

Normal decapolar field along trajectory
(model6-sx-qs)

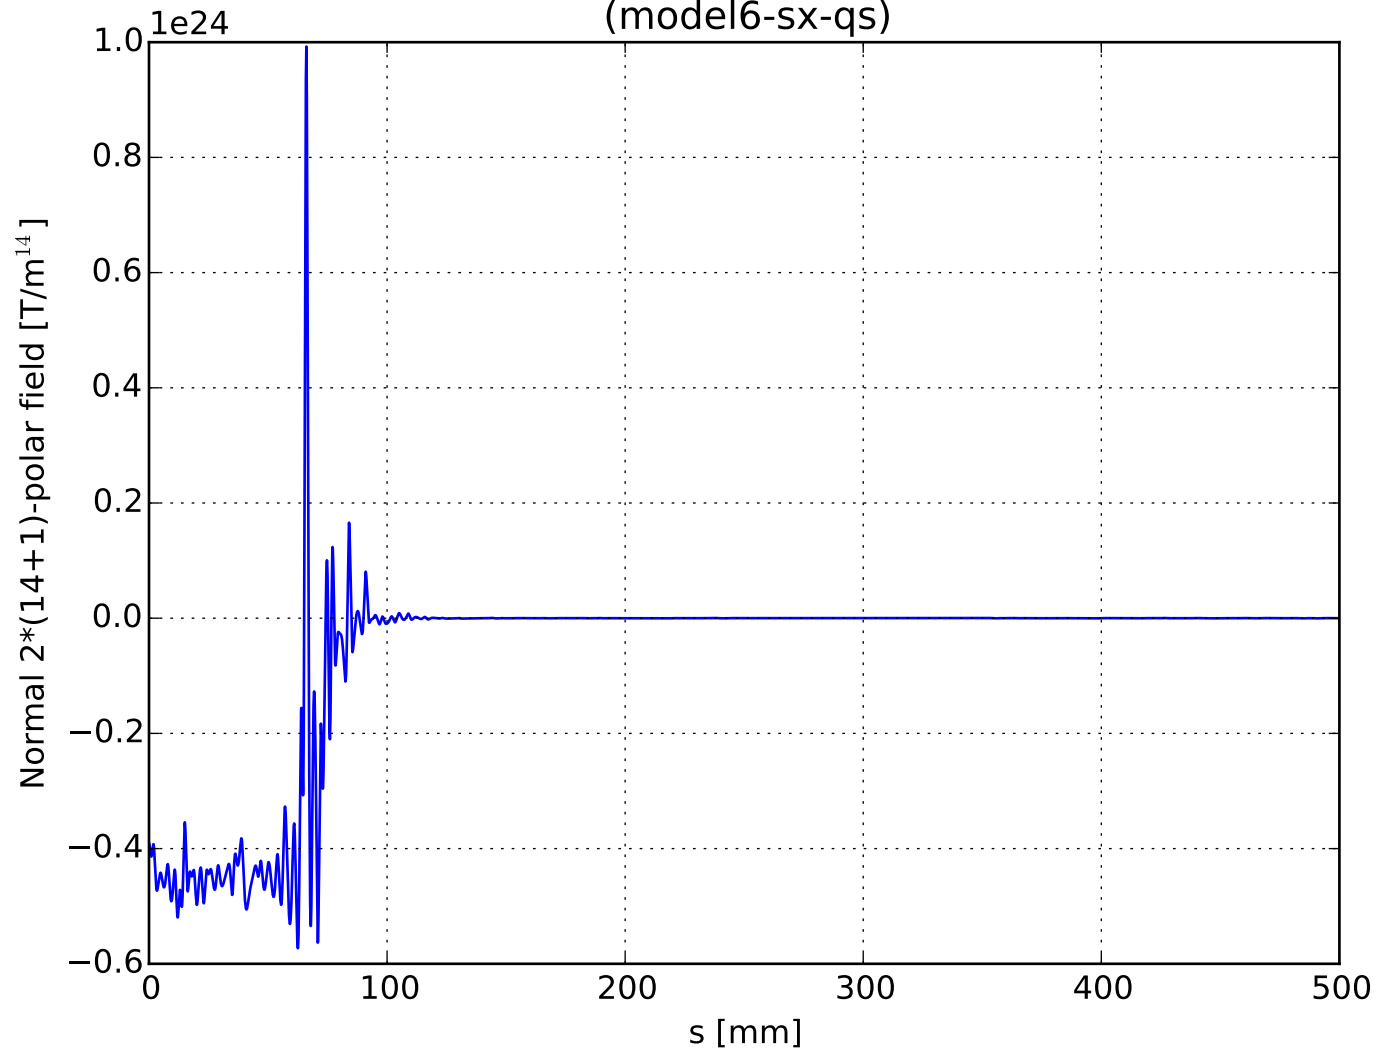

Normal $2*(6+1)$ -polar field along trajectory
(model6-sx-qs)

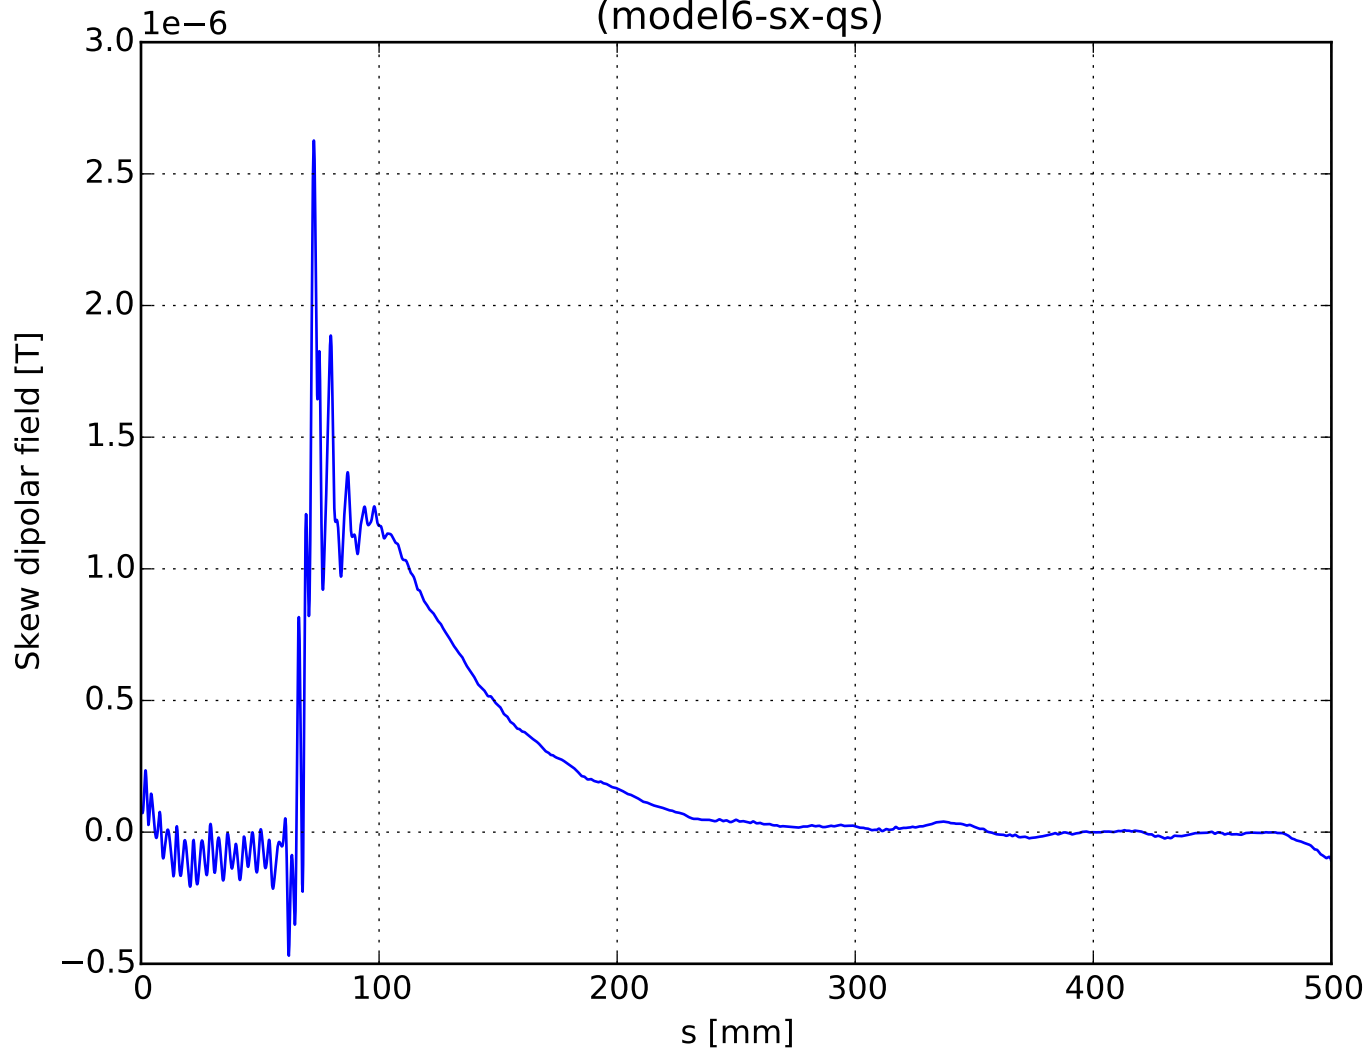

Normal $2*(8+1)$ -polar field along trajectory
(model6-sx-qs)

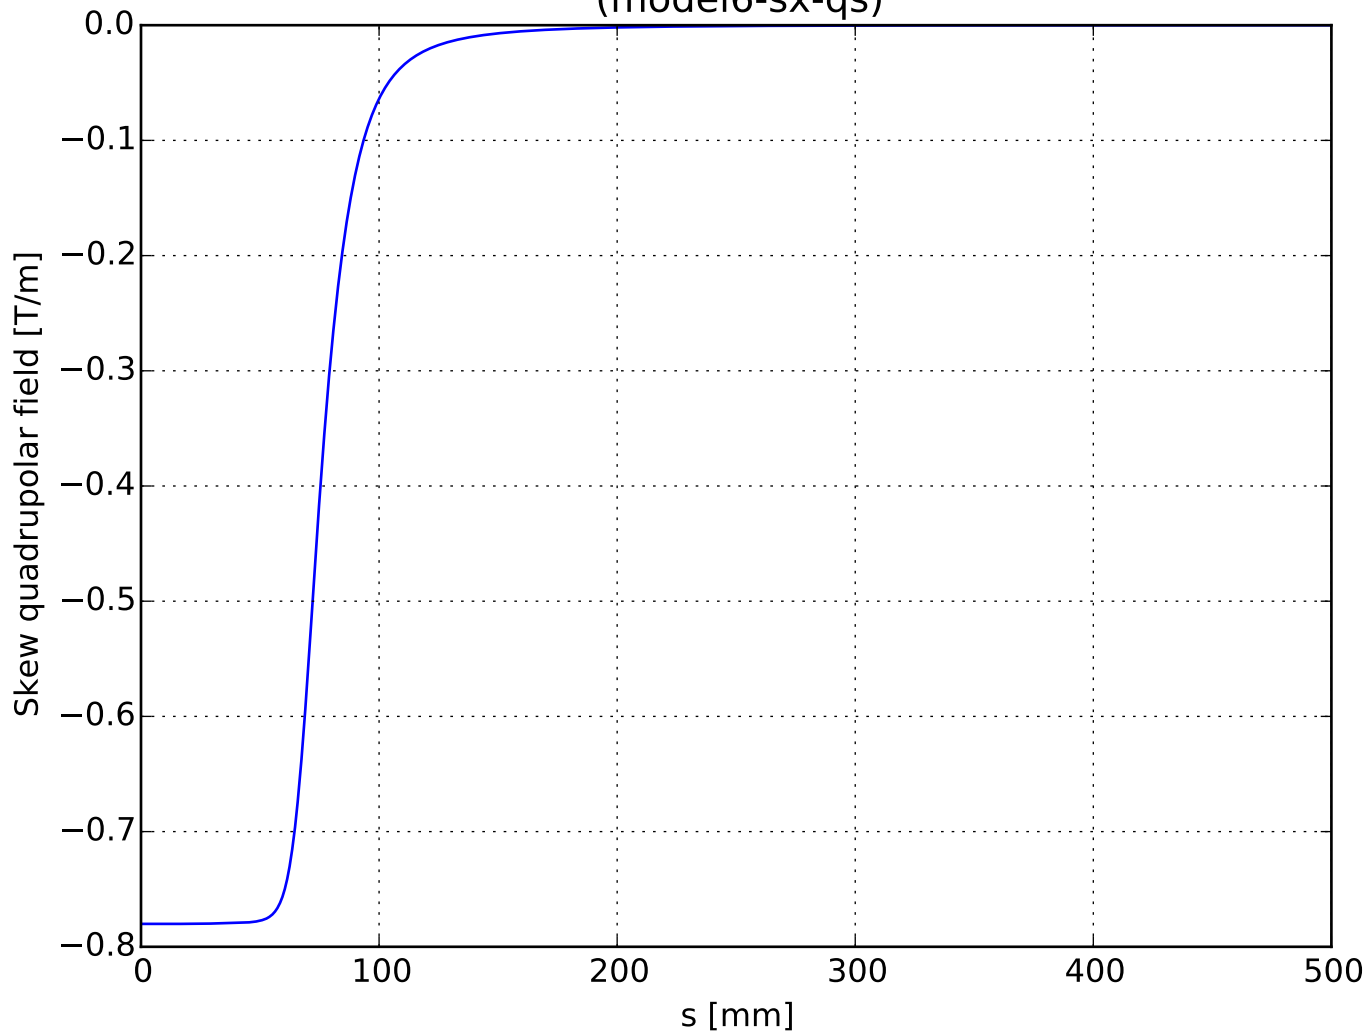

Normal $2*(14+1)$ -polar field along trajectory
(model6-sx-qs)

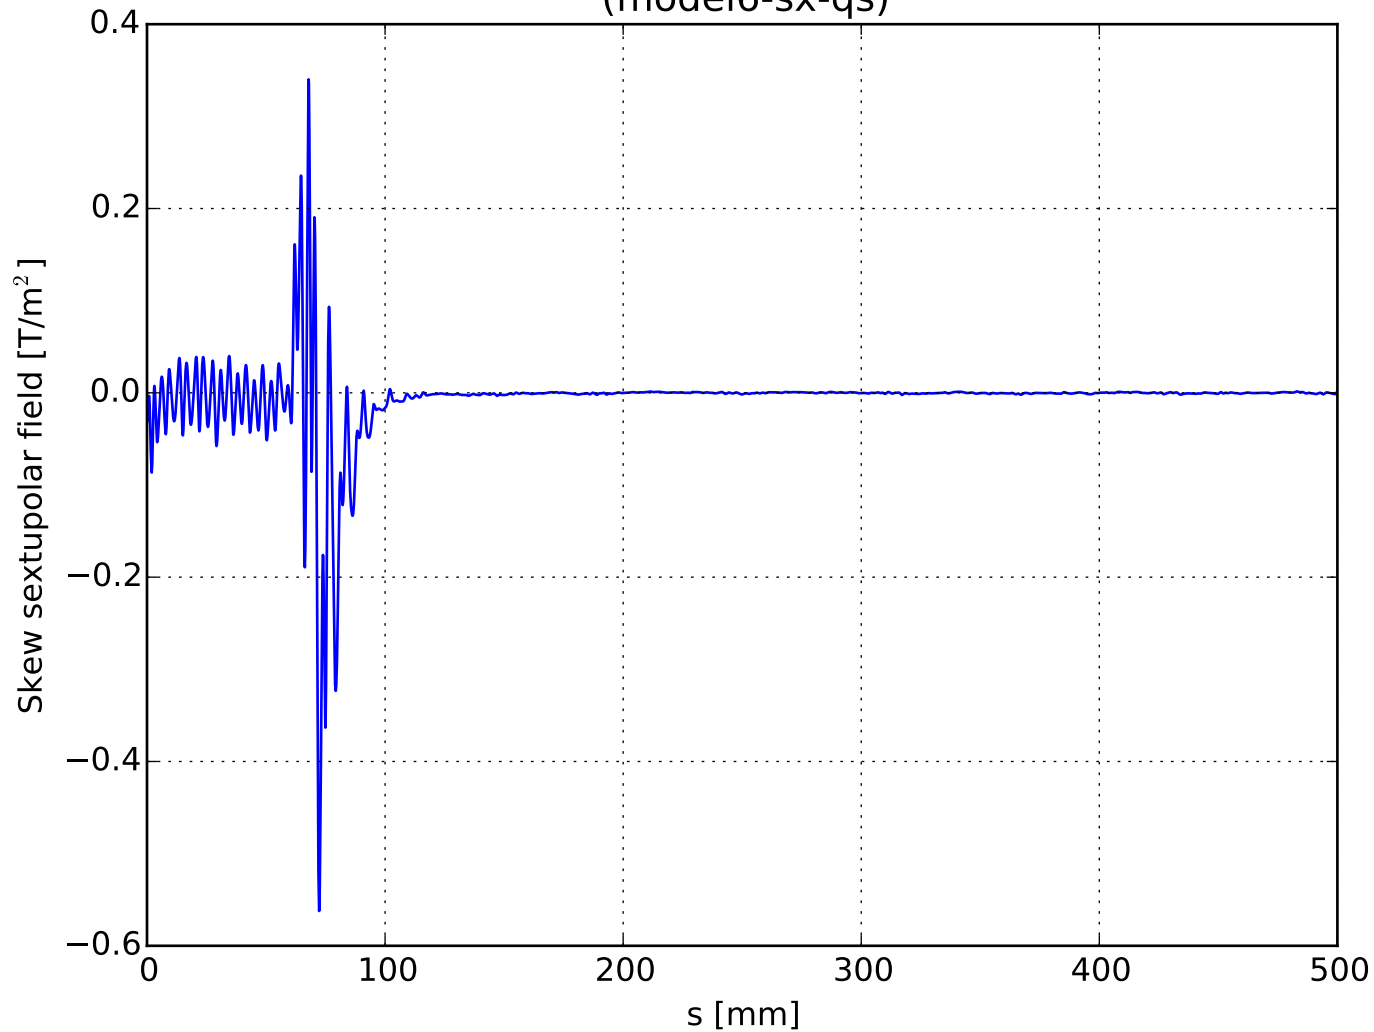

Skew dipolar field along trajectory
(model6-sx-qs)

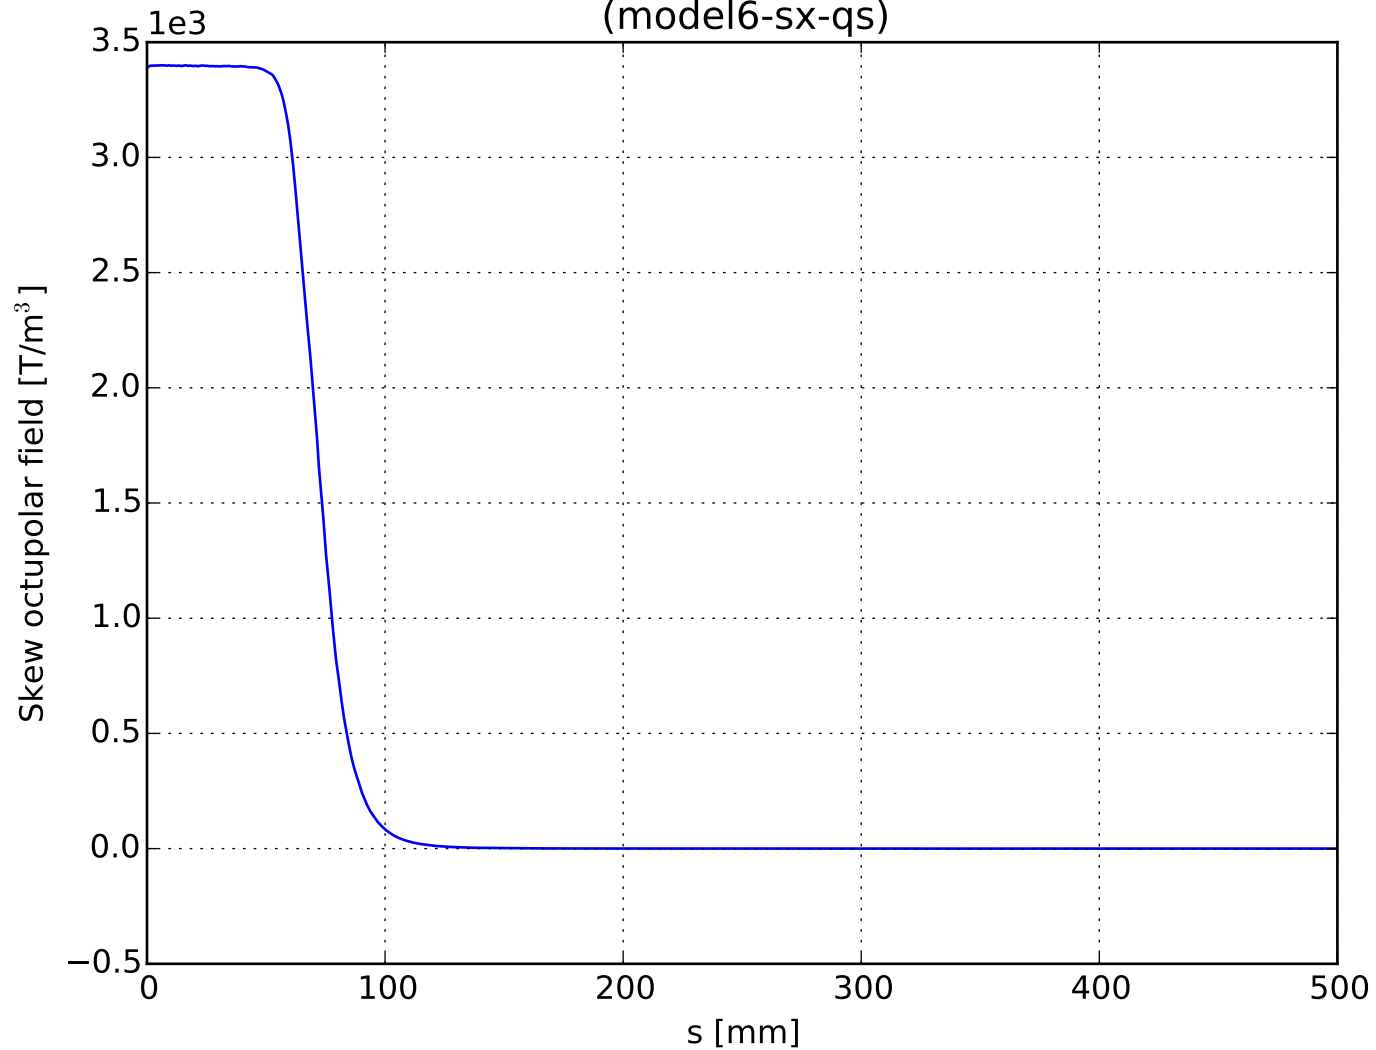

Skew quadrupolar field along trajectory
(model6-sx-qs)

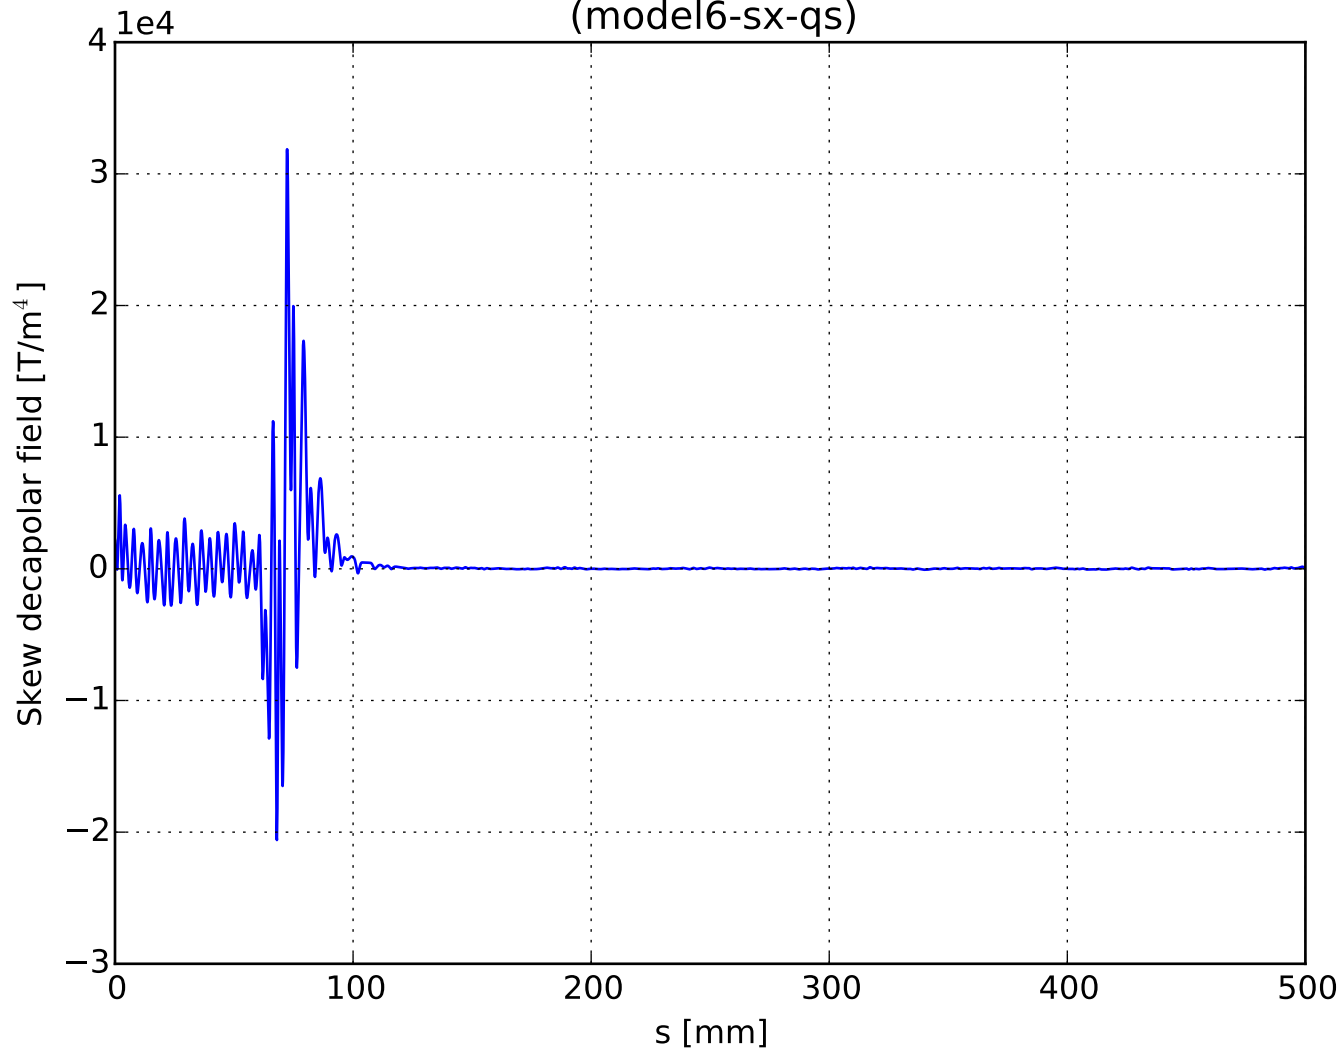

Skew sextupolar field along trajectory
(model6-sx-qs)

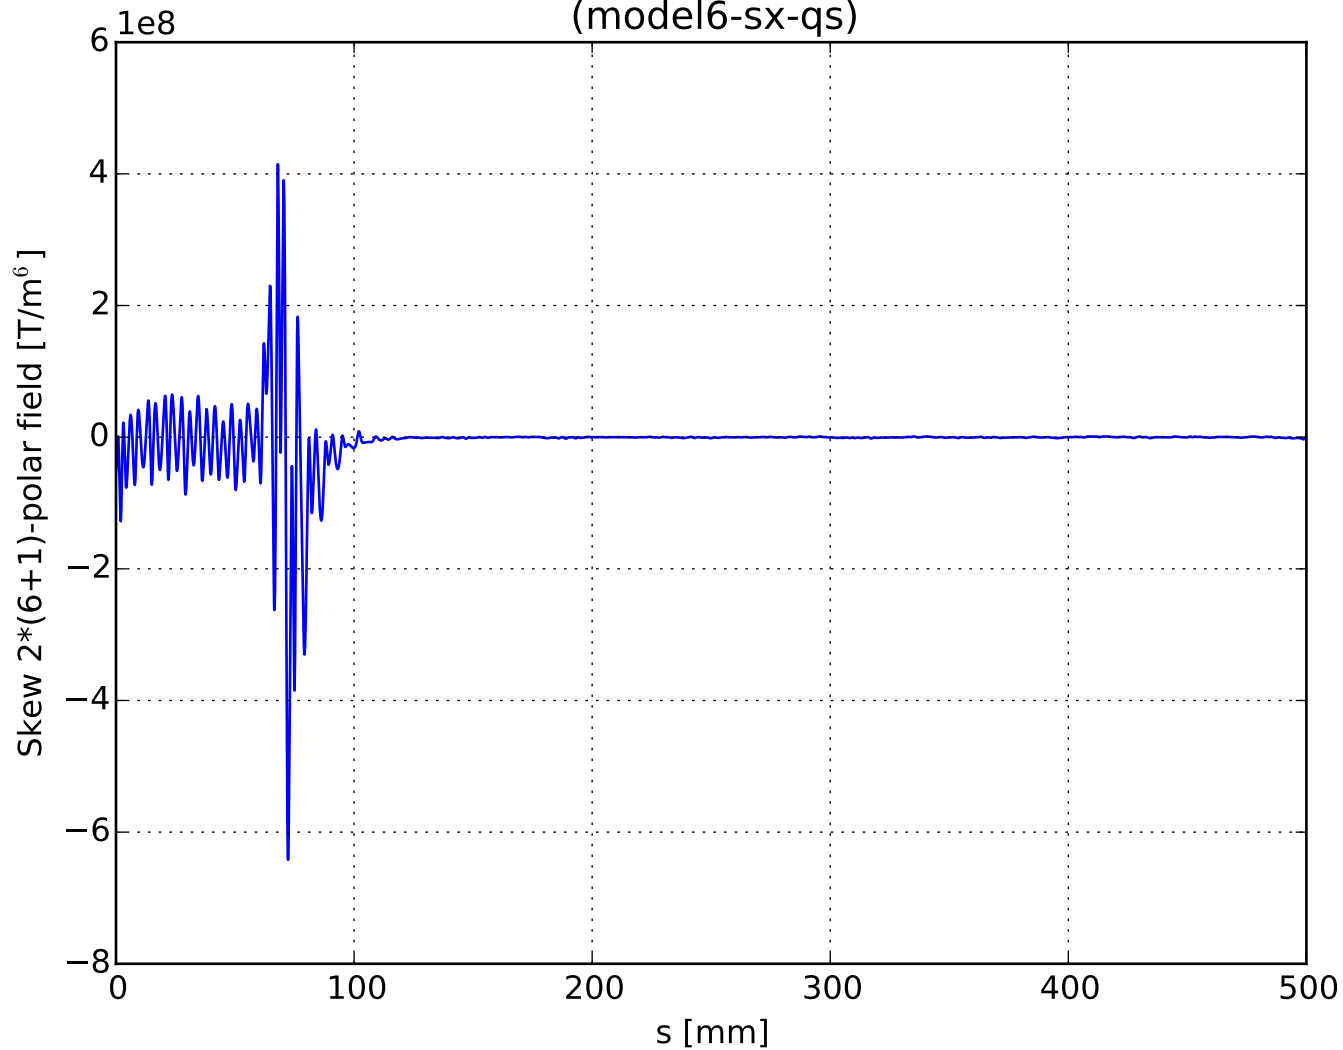

Skew octupolar field along trajectory
(model6-sx-qs)

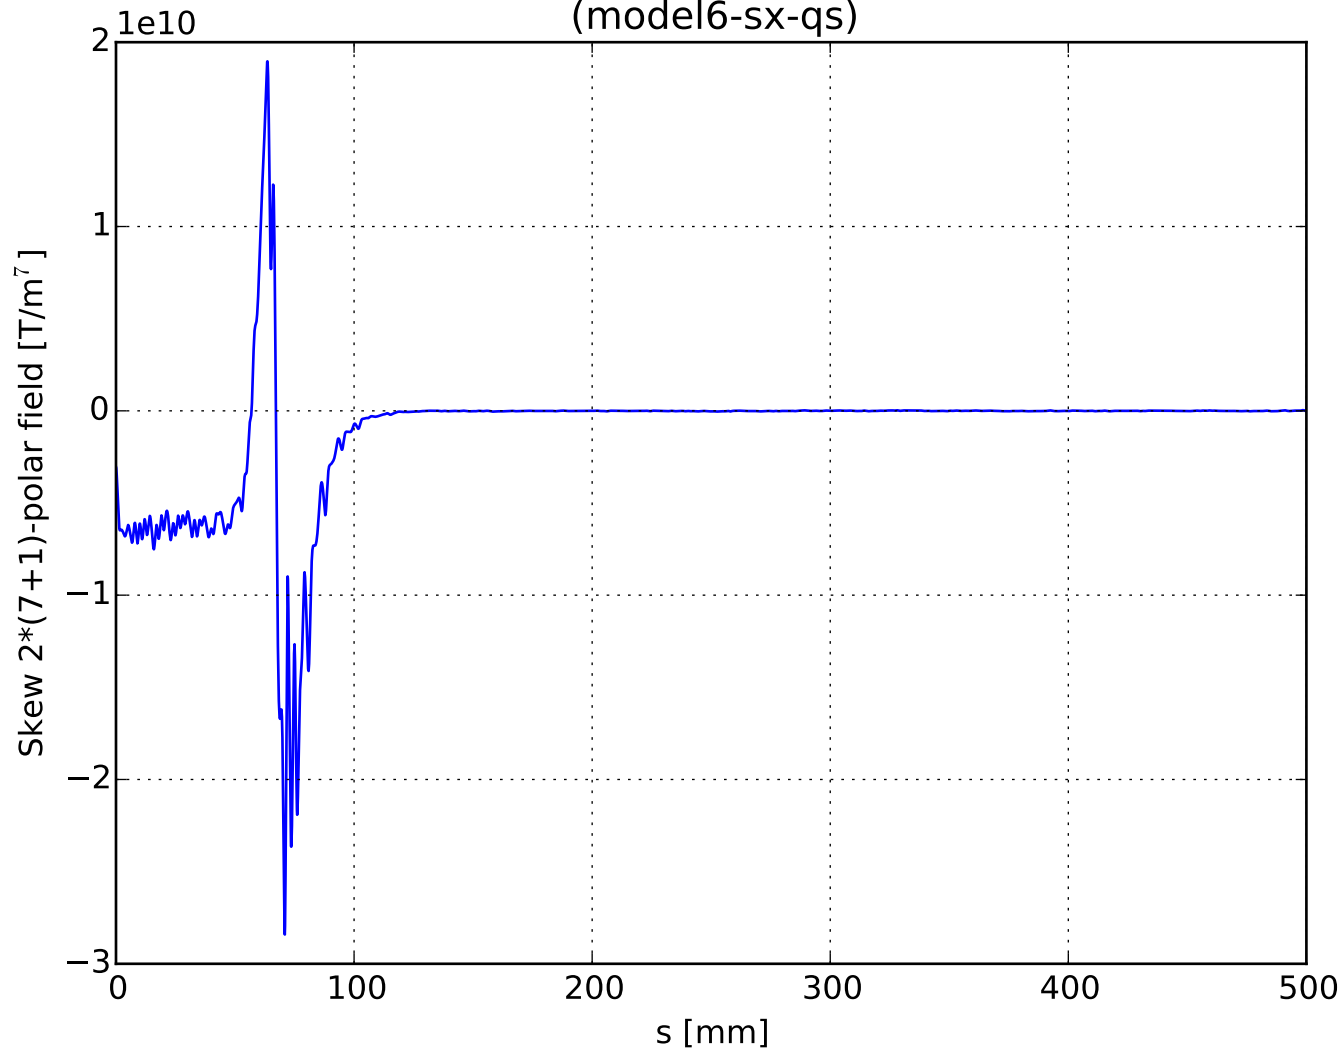

Skew decapolar field along trajectory
(model6-sx-qs)

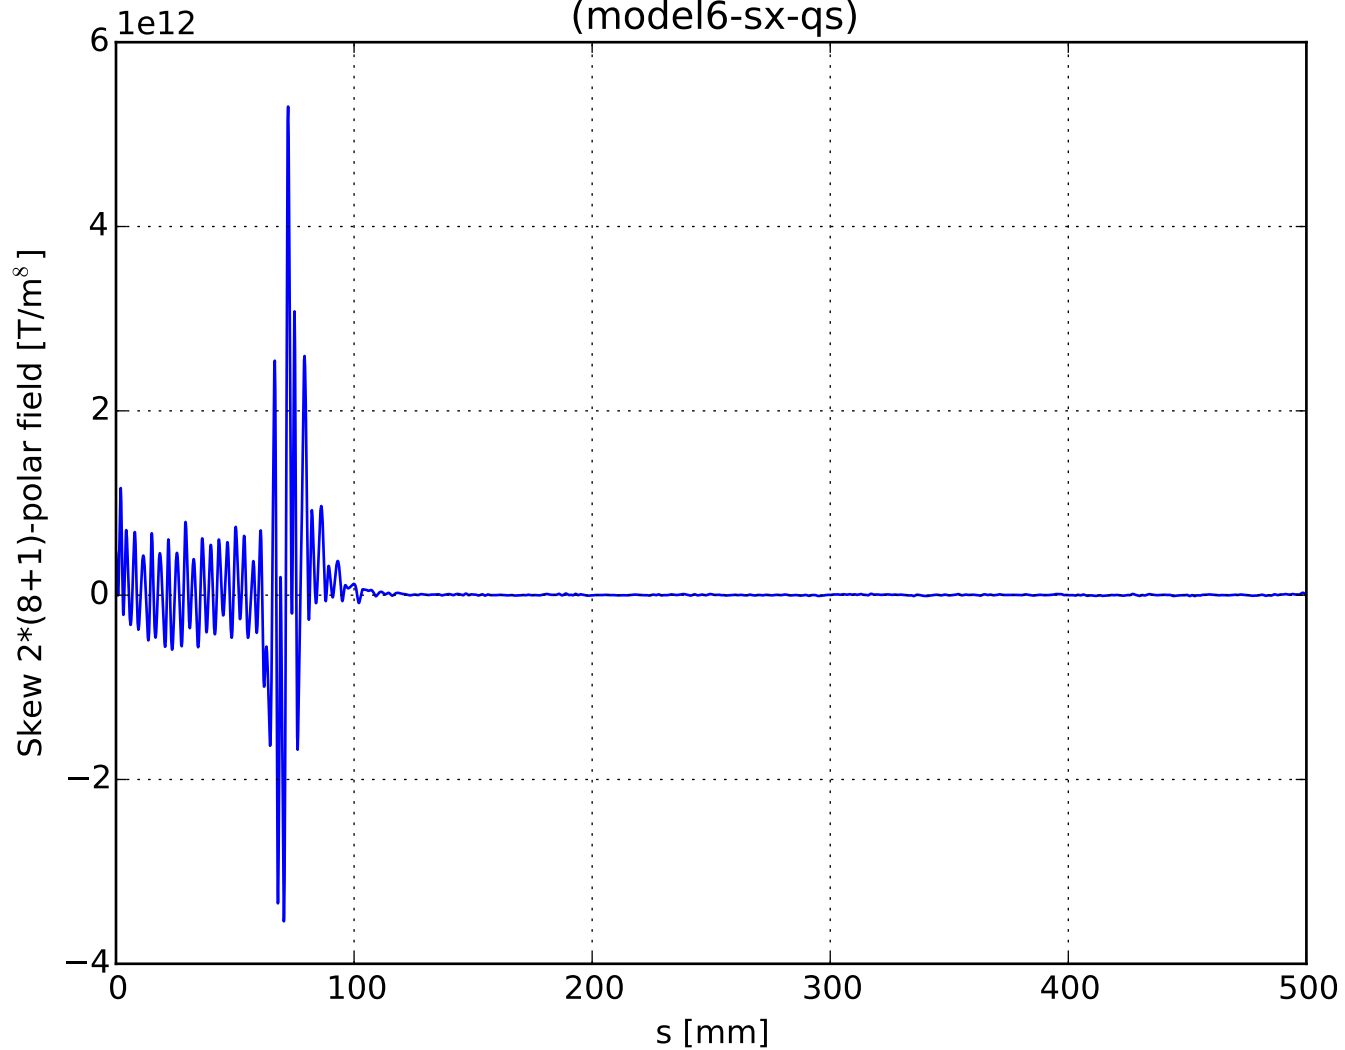

Skew $2*(6+1)$ -polar field along trajectory
(model6-sx-qs)

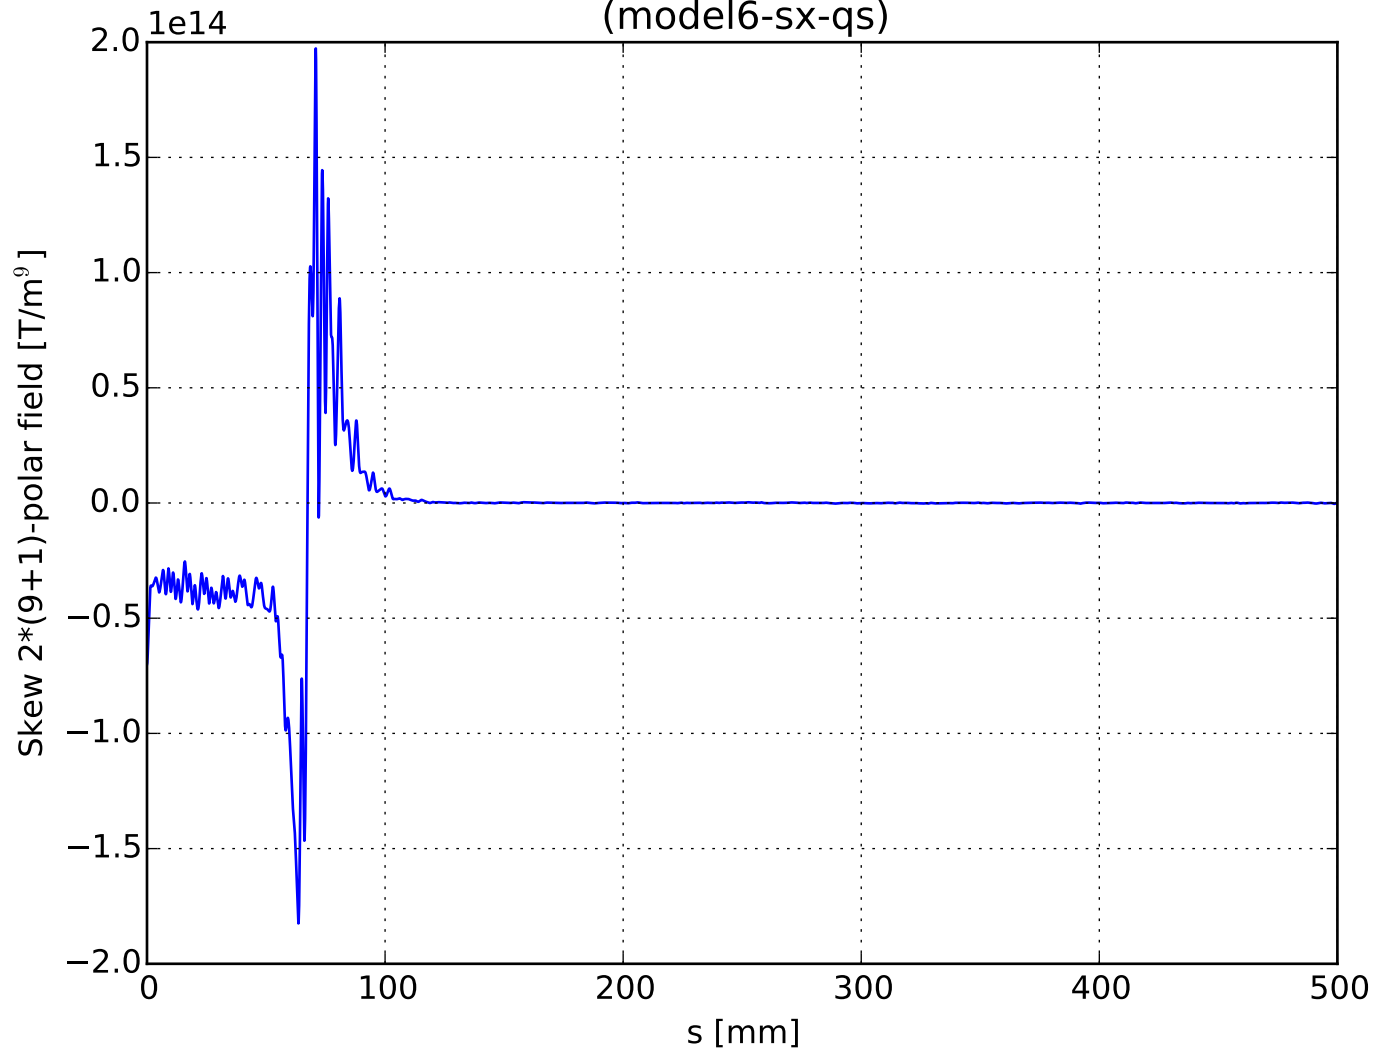

Skew $2*(7+1)$ -polar field along trajectory
(model6-sx-qs)

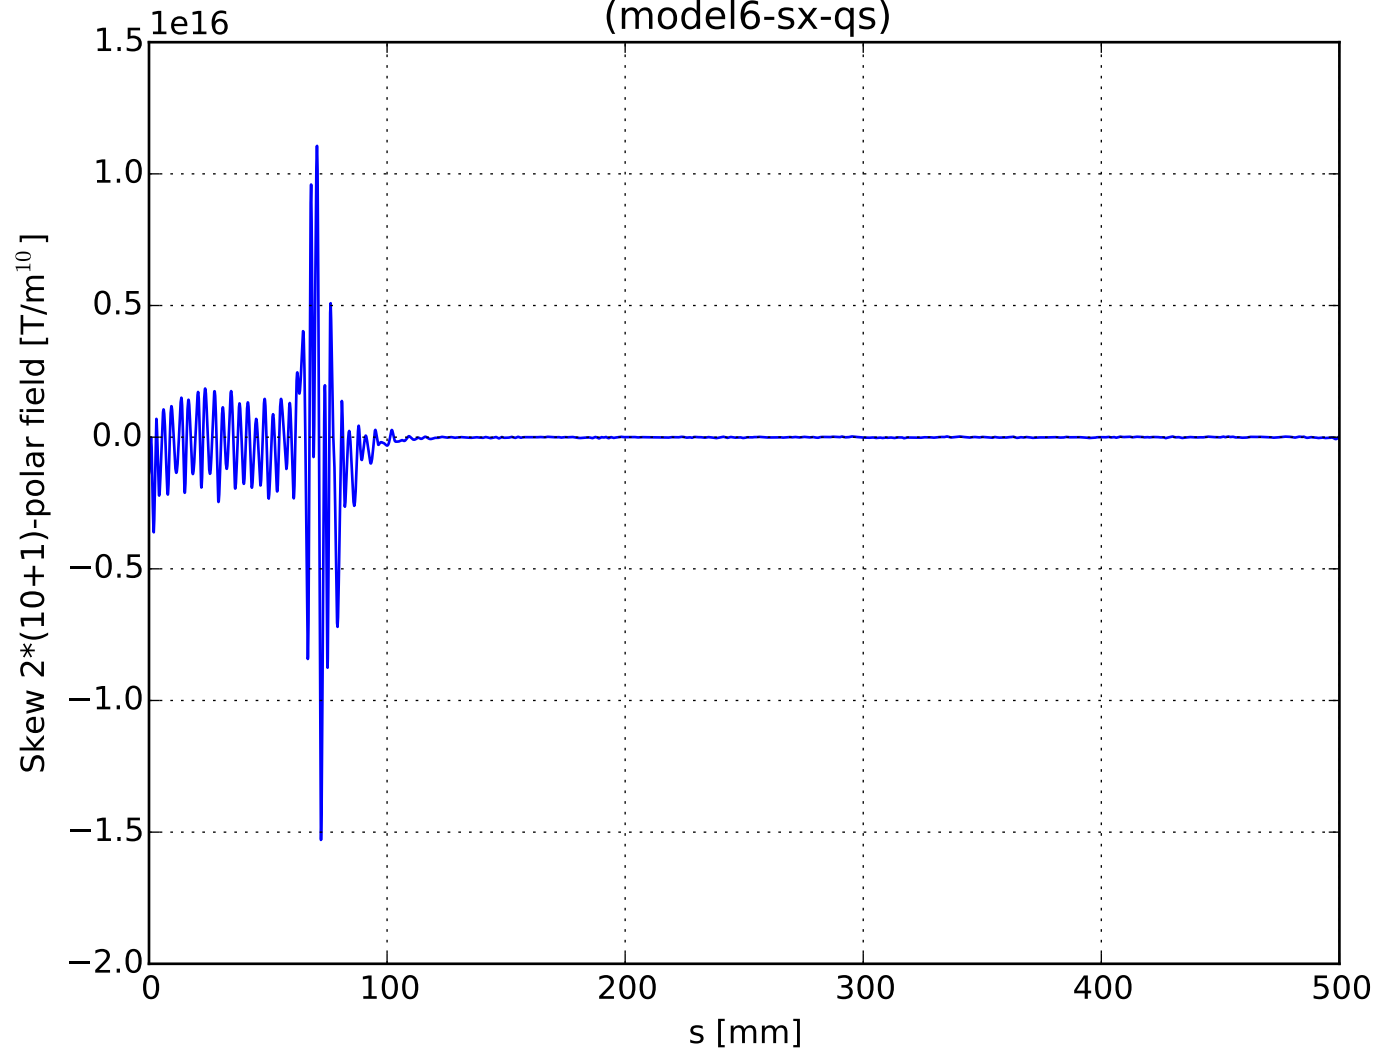

Skew $2*(8+1)$ -polar field along trajectory
(model6-sx-qs)

Skew $2 \cdot (9+1)$ -polar field along trajectory
(model6-sx-qs)

Skew $2 \cdot (10+1)$ -polar field along trajectory
(model6-sx-qs)

Skew $2 \cdot (13+1)$ -polar field along trajectory
(model6-sx-qs)
